The Goto islands are located in the East China Sea, to the west of Nagasaki City in the Kyushu region, Southern Japan. Time passes slowly on the islands, which are surrounded by shimmering blue seas and blessed with bountiful nature. The islands once flourished as a port of call for ships carrying Japanese missions to Tang China during the Nara and Heian periods, and later as a hub of international trade. With their unique tradition and culture, the islands offer tourists a relaxing experience and a wealth of delicious foods throughout the year.

## Welcome to the Relaxing Islands of Goto!

### Takahama Beach

Takahama Beach is said to be the most beautiful white sand beach in Japan. The view of the beach from a nearby observation deck is superb. The beach attracts many bathers during summer, and was selected as one of Japan's 100 top scenic beaches and as one of the best 100 bathing beaches in Japan.

# The Charms of Goto

Relaxing cobalt blue seas, the lush greenery of Mt. Onidake, and quaint buildings that blend in with the natural surroundings and the islanders' lifestyles. You are sure to lose track of time in the relaxing environment of the islands.

## Top spot | Osezaki Lighthouse

This white lighthouse is located at Osezaki Cliff, which was formed by erosion from the wild waves of the East China Sea. The combination of the lighthouse, the cliff and the surrounding natural environment presents a spectacular view.

### Dozaki Church

This church is the oldest western-style building on the Goto Islands. The Gothic red-brick building looks like a typical European church. Currently, historical materials related to Christianity are exhibited, and a Mass is held once a month in the building.

### Mt. Onidake

Mt. Onidake, a symbol of Goto, is a 315-meter cinder-cone volcano, which last erupted an estimated 18000 years ago. The volcano, which is covered in grass, is well-known as a venue for an annual kite-flying event, and as a leisure spot.

### Abunze Lava Coast

The black rocks that form the coastline consist of hardened lava that flowed from Mt. Onidake. The contrast between the black rocks and the blue ocean offers a unique and special view.

Electric vehicles (EV) with electronic tourist information systems are being introduced in the Goto area. EV rental is highly recommended for those wishing to explore independently.  
\*For more information, please see page 1

## Street of the Samurai Quarter

This street is located in an old castle town that was built by a Lord of the Goto-han (Goto Domain), and is lined with old samurai residences. Most of them have a *yakuimon*-style gate, which reflects the atmosphere of the time.

Baramon Kite

## Imochiura Church Lourdes

This church was constructed under the direction of French missionary Father Peroud. Located near the church is the first Lourdes grotto in Japan, which was built in response to Father Peroud's exhortation, and modeled after the Massabielle Grotto in Lourdes in the south of France.

## Former Gorin Church

This is the oldest wooden church on Goto. In contrast to its Japanese-style exterior, its interior has features of genuine ecclesiastical architecture: a three-aisle layout, a wooden rib-vault ceiling, and a Gothic-style altar. At this church, you can find out about the history of church-building in the early Meiji Era.

Inscribed on the tentative list for UNESCO World Heritage Sites.

## Events

### Goto Tsubaki (Camellia) Festival

Enjoy Goto in winter among the blooming camellias at this festival, which includes exhibitions and a Japanese tea ceremony.

Date: February-March, depending on the blooming of the camellias

### Fukue Port Festival

Goto comes to life with the music of flutes and drums at this autumn festival. On the last night, fireworks light the sky.

Date: First Saturday and Sunday of October

## Activities

### Glass-boat tour

Take a glass-boat tour and observe tropical fish and beautiful coral beneath the crystal-clear water.

### Salt-factory tour

Visit the salt-factory, situated on a hill overlooking the gorgeous Kozushi Beach. Learn how salt is made, and try your hand at simple salt-making using an earthenware pot.

### Stained glass workshop

Make your own colorful stained glass, under the guidance of instructors who also produced stained glass for a local church.

### Kankoromochi rice cake workshop

Kankoromochi is a healthy local sweet prepared by pounding steamed sweet potato and sticky rice. At this workshop you can try making this popular local product.

### Beach fishing

Try various types of beach fishing, including seine (dragnet) fishing and lobster fishing.

### Baramon kite painting

Paint a traditional Goto kite with your own original design!

Baramon kites are a traditional craft of Goto. Local people fly their Baramon kites to pray for the healthy growth of their children.

### Raft fishing (ikadatsuri)

Board a raft floating in the bay, drop a line, and see what you catch!

## Food and Specialty Products

### Goto Beef

Goto beef is characterized by its juiciness and sweetness, combined with just the right amount of marbling. You can enjoy a Goto beef steak set-meal at a reasonable price in local restaurants on Goto.

### Sushi

The most popular Japanese food is surely sushi. If you wish to enjoy sushi prepared with seasonal seafood fresh from the Goto-nada Sea, why not visit a local sushi restaurant?

### Goto Camellia Oil Products

Excellent quality camellia oil has long been produced on the Goto Islands. It can be used for hair- and skin-care and even in cooking. The Goto camellia oil product range includes shampoos, soaps and skin creams.

### Goto Udon Noodles

Goto Tenobe Udon (hand-stretched Udon) is one of the most popular local dishes on Goto, and one of the three most famous types of udon noodle in Japan. During production, Goto camellia oil is added as the noodles are stretched. The stretched noodles are then dried by the islands' sea breeze.

### Goto Shochu

Shochu is a distilled spirit made from ingredients produced in Goto, such as barley, sweet potato and rice.

### Goto Green Tea

Goto Green Tea is a steamed *tamayokucha* green tea made from tea leaves harvested from the slopes of Mt. Onidake.
